JL,
This should be okay.

Pablo

Subject: 646.3510/3511/3512/3513 STRUT ASSY

Hi Pablo,
We have started manufacturing the struts and have run into some problems with cracking when punching/bending the end of the struts.
Would going to 304 ss tubing with .049" wall be an acceptable deviation?
This would include changing the bottom plate that gets welded on also to SS.
Let me know asap so I can attach to the w/o and if acceptable I will issue a ECR.
